belvedere

[www.belvedere.at](http://www.belvedere.at)

A UNESCO World Heritage Site, the Belvedere is a unique ensemble of Baroque architecture comprising the Upper and Lower Belvedere palaces, orangery, palace stables, and beautiful gardens. Today the Belvedere houses the national museum of Austrian art. Here and at its two other branches - the contemporary art museum at the 21er Haus and the Winter Palace in the city centre - visitors can appreciate artworks ranging in date from the Middle Ages to the present day.

In fall 2015, the Belvedere launched a program especially customized for expats in Vienna with the aim of fostering cultural exchange between the international community and their host country Austria by providing a range of attractive offers and special privileges not offered to the general public.

It is our great pleasure to invite you to join the Belvedere EXPAT Cercle, to explore and enjoy art, and to make the most of the many benefits available via the program!
